IDM MINING LTD.**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

(Unaudited - Expressed in Canadian Dollars)

JULY 31, 2016

1. NATURE AND CONTINUANCE OF OPERATIONS

IDM Mining Ltd. (the “Company”) is an exploration company incorporated on July 14, 2009 under the laws of the Province of British Columbia, Canada. The Company’s shares were voluntary delisted from the Toronto Stock Exchange after close of trading on December 29, 2015 and were listed on TSX Exchange (“TSXV”) on open of trading on December 30, 2015. On June 6, 2014, the Company changed its name from “Revolution Resources Corp.” to “IDM Mining Ltd.” and now trades under the symbol IDM.

The Company’s head office, principal address and registered and records office is 1500 – 409 Granville Street, Vancouver, British Columbia, Canada, V6C 1T2.

The Company is in the business of acquiring and exploring economically viable mineral resource deposits on its mineral properties. The recoverability of the amounts shown for mineral properties acquisition costs and related deferred exploration costs are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production.

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The Company has incurred losses from inception and has no source of recurring revenue. The continuing operations of the Company are dependent upon its ability to raise adequate financing and to commence profitable operations in the future and repay its liabilities arising from normal business operations as they become due. While the Company has been successful in obtaining its required funding in the past, there is no assurance that such future financing will be available or be available on favourable terms.

The condensed consolidated interim financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. Continued operations of the Company are dependent on the Company’s ability to receive financial support, necessary financings, or generate profitable operations in the future.

2. BASIS OF PREPARATION**Statement of Compliance**

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standards (“IAS”) 34, “Interim Financial Reporting” on a basis consistent with the accounting policies disclosed in the audited consolidated financial statements for the fiscal year ended October 31, 2015.

The condensed consolidated interim financial statements should be read in conjunction with the most recently issued audited consolidated financial statements, which include information necessary or useful to understanding the Company’s business and financial statement presentation. In particular, the Company’s significant accounting policies which were presented in Note 3 to the Consolidated Financial Statements for the fiscal year ended October 31, 2015 have been consistently applied in the preparation of the Company’s condensed consolidated interim financial statements.

The Company’s condensed consolidated interim financial statements are unaudited. Financial information in this report reflects any adjustments (consisting of normal recurring adjustments) that are, in the opinion of management, necessary to a fair presentation of results for the interim periods in accordance with IFRS as issued by the International Accounting Standards Board.

3. EXPLORATION AND EVALUATION ASSETS**Title to mineral properties**

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain mineral titles as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all its properties and, to the best of its knowledge; title to all of its properties is in good standing.

Red Mountain (B.C., Canada)

In April 2014, the Company entered into an option agreement with Seabridge Gold Inc. (“Seabridge”) to acquire a 100% interest in the Red Mountain gold project located near Stewart, B.C.

Under the terms of the option agreement, the Company issued 4,955,500 common shares valued at \$1,214,098, and paid \$2,000,000 in cash in two equal instalments and must incur \$7,500,000 million in exploration and development expenditures over three years (\$2,500,000 per year commencing June 4, 2014). As at July 31, 2016, the Company has incurred \$8,585,827. The Company has the right to extend the deadline for expenditure of the final \$2,500,000 by one year upon payment to Seabridge of \$250,000.

Upon the commencement of commercial production, the Company is required to make an additional one-time \$1,500,000 cash payment to Seabridge, and Seabridge will also retain a gold metal stream on the Red Mountain project to acquire 10% of the annual gold production from the property at a cost of \$1,000 per ounce up to a maximum of 500,000 ounces produced (50,000 ounces to Seabridge). Alternatively, Seabridge may elect to receive a one-time cash payment of \$4,000,000 at the commencement of production in exchange for the buyback of the gold metal stream. The property is also subject to payment of production royalties and the payment of a minimum pre-production royalty of \$50,000 (Total pre-production royalty paid to date - \$950,000) to Wotan Resources Corp.
