Supplemental disclosure with respect to cash flows (Note 8)

The accompanying notes are an integral part of these consolidated financial statements.

1. NATURE AND CONTINUANCE OF OPERATIONS

Revolution Resources Corp. (formerly "Nuukfjord Gold Ltd.") (the "Company") is an exploration company incorporated on July 14, 2009 under the laws of the Province of British Columbia, Canada. The Company completed its Initial Public Offering ("IPO") during the year ended October 31, 2010 and is listed on the Toronto Stock Exchange ("TSX").

The Company is in the business of acquiring, exploring and developing economically viable mineral resource deposits on its mineral properties. The recoverability of the amounts shown for mineral properties and related deferred exploration costs are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production.

These interim consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The Company has incurred losses from inception and does not currently have the financial resources to sustain operations in the long-term. While the Company has been successful in completing its IPO and obtaining the required funding in the past, there is no assurance that such future financing will be available or be available on favourable terms. An inability to raise additional financing may impact the future assessment of the Company as a going concern.

The consolidated financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. Continued operations of the Company are dependent on the Company's ability to receive financial support, necessary financings, or generate profitable operations in the future.

2. BASIS OF PRESENTATION

These interim consolidated financial statements include the accounts of Revolution Resources Corp. and its wholly owned subsidiary Storgold Resources Ltd. ("Storgold"). The interim period consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. All financial summaries included are presented on a comparative and consistent basis. The preparation of financial data is based on accounting principles and practices consistent with those used in the preparation of annual consolidated financial statements. Certain information and footnote disclosure normally included in financial statements prepared in accordance with Canadian generally accepted accounting principles has been condensed or omitted. These interim period statements should be read together with the audited consolidated financial statements and the accompanying notes included in the Company's latest audited filing. In the opinion of the Company, its unaudited interim consolidated financial statements contain all adjustments necessary in order to present a fair statement of the results of the interim periods presented.

2. BASIS OF PRESENTATION (Cont'd...)

New accounting standards

Business combinations, non-controlling interest and consolidated financial statements

In October 2009, the CICA issued Handbook Sections 1582 "Business Combinations", 1601 "Consolidated Financial Statements" and 1602 "Non-controlling Interests" which replace CICA Handbook Sections 1581 "Business Combinations" and 1600 "Consolidated Financial Statements". Section 1582 establishes standards for the accounting for business combinations that is equivalent to the business combination accounting standard under IFRS. Section 1582 is applicable for the Company's business combinations with acquisition dates on or after October 1, 2011. Early adoption of this Section is permitted. Section 1601 together with Section 1602 establishes standards for the preparation of financial statements. Section 1601 is applicable for the Company's interim and annual financial statements for its fiscal year beginning November 1, 2011. Early adoption of this Section is permitted and all three Sections must be adopted concurrently.

International financial reporting standards ("IFRS")

In 2006, the Canadian Accounting Standards Board ("AcSB") published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008 the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada's own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after October 1, 2011. The transition date of November 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended October 31, 2011. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

3. LOANS RECEIVABLE

During the year ended October 31, 2010 the Company granted loans to certain Directors totaling $300,000. The loans were solely used for acquiring shares of the Company and are repayable on August 12, 2014. The loans do not bear interest, unless in default, at which time the loans bear interest at 6% per annum. The loans are secured by the 2,000,000 common shares of the company acquired by the loan.

5. MINERAL PROPERTY INTEREST (cont'd…)

Title to mineral properties

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain mineral titles as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to the all its properties and, to the best of its knowledge, title to all of its properties is in good standing.

Champion Hills Properties (USA)

During fiscal 2010 the Company entered into a purchase and sale agreement with a non-arm's length private company. Under the terms of the purchase and sale agreement, the Company can acquire a 90% interest in two option and lease agreements for total consideration of 2,000,000 common shares and US$375,000 payable over a 9 month period. The Company has the right of first refusal on the remaining 10% after incurring US$1,000,000 in exploration expenditures. During the period ended April 30, 2011, the Company received TSX approval, issued 2,000,000 common shares valued at $930,000 and paid $174,450 (US$175,000). On completion of the purchase and sale agreement, the Company will be assigned 90% of the rights and obligations under the option and lease agreements on the two mineral properties.

The Company subsequently entered into various additional option and purchase agreements directly with the property owners which entitle the Company to acquire 100% of the properties. The Company paid $408,259 (2010 - $19,127) on signing.

As at April 30, 2011 the various option and purchase agreements cover approximately 2,200 acres (October 31, 2010 - 278 acres), require annual lease payments of US$200 per acre over a five year term and US$1 per foot drilled. The Company has the option to purchase each land package for the greater of 150% of the appraised value or a certain fixed price. Upon commencement of commercial production the properties are subject to a 2% Net Smelter Returns Royalty ("NSR").

Silver Hill and Silver Valley

During fiscal 2011 the Company entered into two separate letter agreements with a private company, Carolina Mineral Resources Inc. (CMRI), on properties known as the Silver Hill mine and the Silver Valley Mine, North Carolina.

Under the terms of the Silver Hill property agreement the Company can earn 100% of CMRI's rights to a mineral lease agreement for consideration of US$220,000, exploration expenditures totaling US$2,500,000 and the issuance 300,000 common shares, all over a four year period. The Company is also required to issue 500,000 common shares upon completion of a positive, bankable feasibility study and an additional 500,000 common shares upon commencement of commercial production. The property is subject to a 4% NSR. During the period ended April 30, 2011, the Company issued 75,000 common shares valued at $44,250 and paid $59,146 (US$60,000).

Under the terms of the Silver Valley mine agreement the Company can earn 100% of CMRI's rights to a mineral lease agreement for consideration of US$200,000, exploration expenditures totaling US$2,500,000 and the issuance of 300,000 common shares, all over a four year period. The Company is also required to issue 500,000 common shares upon completion of a positive, bankable feasibility study, and an additional 500,000 common shares upon commencement of commercial production. The property is subject to a 4% NSR. During the period ended April 30, 2011, the Company issued 75,000 common shares valued at $44,250 and paid $39,430 (US$40,000). .

5. MINERAL PROPERTY INTEREST (cont'd…)

Virgilina

During fiscal 2011 the Company entered into an option agreement on the Virgilina copper property, North Carolina. The Company can earn 100% interest in the property for consideration of US$600,000 payable over four years, exploration expenditures totaling US$1,500,000 and the issuance of 400,000 common shares, all over a four year period. The Company is also required to issue 500,000 common shares upon completion of a positive, bankable feasibility study and an additional 500,000 common shares upon commencement of commercial production. During the period ended April 30, 2011, the Company issued 100,000 common shares valued at $59,000 and paid $118,291 (US$120,000).

Hoover Hill

During fiscal 2011 the Company entered into an option and purchase agreement on the Hoover Hill mine property, North Carolina. The Company has a four year option to purchase each land package for the greater of 150% of the appraised value or a certain fixed price. The Company paid $295,680 (US$300,000) on signing and issued 100,000 share purchase warrants with a fair value of $38,775. The option can be extended for an additional year for US$100,000. Each warrant entitles the holder to one common share at an exercise price of $0.75 for a period of four years. The fair value of these warrants was estimated using the *Black-Scholes Option Pricing Model* with the following assumptions: risk-free interest rate of 1.87%; dividend yield 0%; volatility of 100%; and an expected life of 3 years. The Company paid other share issuance costs of $104,548.The property is subject to a 2% NSR, of which one-half (1%) may be purchased for US$1,000,000.

Nuukfjord (Greenland)

By agreement dated July 17, 2009, as amended July 18, 2009, December 21, 2009 and February 25, 2010 (the "Acquisition Agreement") the Company acquired all of the issued and outstanding shares of Storgold Resources Ltd. ("Storgold"). Storgold's material asset at that time was a property option agreement (the "Option Agreement") with NunaMinerals A/S (a public Danish company) on certain mineral licenses in Greenland (the "Property"). Pursuant to the Acquisition Agreement, the Company issued 6,650,000 common shares valued at $1,662,500, granted a 0.5% NSR and reimbursed the vendors' prior expenditures incurred in negotiating the Option Agreement of $64,889, which were recorded as other acquisition costs, and $13,967 recorded as exploration costs.

Pursuant to the Acquisition Agreement, the Company raised financing of $1,250,000 and listed its common shares on the TSX.

The Option Agreement entitles the Company to earn up to a 65% interest in the Property, in incremental phases. To earn the full 65% interest the Company is required to pay $23,000,000 towards exploration expenditures over four years. The payments toward exploration expenditures and the interest earned are as follows:

Phase A – In earning its initial 15% interest the Company advanced $3,500,000 in exploration expenditures.

Phase B – The Company is required to advance an additional $3,500,000 towards exploration expenditures by September 30, 2011 for an additional 15% interest,

5. MINERAL PROPERTY INTEREST (cont'd…)

Nuukfjord (Greenland) (cont'd…)

Phase C – The Company is required to advance an additional $4,500,000 towards exploration expenditures by September 30, 2012 for an additional 19% interest,

Phase D – The Company is required to advance an additional $11,500,000 towards exploration expenditures by September 30, 2013 for an additional 16% interest.

Pursuant to the Option Agreement, NunaMinerals A/S is the operator, and will conduct all work on the Property. NunaMinerals A/S may, at its election, incur exploration expenses in advance of the option payment dates, which will be subsequently reimbursed by the Company.

The Company's completion of Phase A was mandatory, whereas advancement of funds required to exercise the option in respect of Phase B, C and D respectively are entirely at the Company's option. Upon the completion of any of Phases A, B or C, the Company has the option to form a joint venture partnership with NunaMinerals A/S or to complete the next phase. Upon the completion of Phase D a joint venture will have deemed to have formed. When a joint venture is formed a new Danish company will be formed to hold title to the Property, which will be owned by Storgold and NunaMinerals A/S as to their respective interests. Contributions will be made based on each company's interest.

If subsequent to joining the joint venture the Company elects not to contribute its proportionate share of costs, the Company's interest is subject to dilution. If the Company's interest dilutes to less that 10%, its interest will automatically convert to a 1% NSR.

Exploration expenditures payable

As at April 30, 2011, NunaMinerals A/S had incurred additional expenditures of $87,114 (October 31, 2010 - $6,065), recorded as exploration expenditures payable.

6. LOANS PAYABLE

During the year ended October 31, 2010, the Company entered into loan agreements for proceeds of $500,000 of which $100,000 was owed to a company owned by an officer of the Company. The loans bear interest at 15% per annum and were repayable at the earliest of (i) within five days following the Company's first day of trading on the TSX, (ii) July 31, 2010, or (iii) at the election of the lender in the event of default. The Company also issued 100,000 special warrants to the lenders (of which 20,000 special warrants were issued to a company owned by an officer of the Company) as a financing fee valued at $40,000, which were converted to common shares of the Company upon the closing of the IPO. On commencement of the Company trading on the TSX the Company repaid the loans and interest totaling $527,329.

In addition, the Company entered into a loan agreement for a $250,000 non-interest bearing loan due the earlier of (i) 30 days of receipt or (ii) the first day of trading on the TSX. The loan was repaid in full during the year ended October 31, 2010.
