

IDM Mining Closes Second Tranche of Equity Financing to Fund Exploration at the Red Mountain Gold Project, B.C.

NOT FOR DISTRIBUTION TO UNITED STATES NEWS WIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES

October 10th, 2014, Vancouver, BC – IDM Mining Ltd. (TSX:IDM) (“IDM” or the “Company”) is pleased to announce that it has closed the second tranche of its non-brokered private placement financing announced on September 3 and 23, 2014 (the "Offering"). The second and final tranche of the Offering consisted of 622,222 flow-through share units ("Flow-Through Units") issued at a price of \$0.45 per Flow-Through Unit and 512,500 common share units ("Common Share Units") at a price of \$0.40 per Common Share Unit, for aggregate gross proceeds of \$484,999.90. The Company raised total gross proceeds of \$2,484,979 in the Offering.

Each Common Share Unit consists of one common share and one-half of one non-transferable share purchase warrant, with each such whole warrant entitling the holder thereof to acquire one common share at a price of \$0.50 for a period of twenty-four (24) months.

Each Flow-Through Unit consists of one flow-through common share and one-half of one non-transferrable share purchase warrant, with each whole warrant entitling the holder thereof to acquire one non flow-through common share at a price of \$0.55 for a period of twenty-four (24) months.

Certain directors and officers of the Company, being Robert McLeod, Michael McPhie, Andrew Farncomb, David Parker and Susan Neale participated in the Offering by acquiring an aggregate of 284,722 Flow Through and Common Units (or an aggregate of 427,083 shares, assuming exercise of their warrants) for an aggregate subscription of \$114,999.90. The shares comprising such units (excluding shares issuable under the warrants) represent approximately 0.7% of the Company's currently issued and outstanding shares on a non-diluted basis (or approximately 1.0%, assuming exercise of their warrants). Such participation is considered to be a “related party transaction” as defined under Multilateral Instrument 61-101 (“MI-61-101”). Such participation is exempt from the formal valuation and minority shareholder approval requirements of MI 61-101, as neither the fair market value of units issued to, nor the consideration paid by, such directors or officers will exceed 25% of the Company's market capitalization.

Finders' fees payable in connection with the Offering consisted of a total of \$18,900 and 42,000 finders' warrants.

Net proceeds from the Offering will be used for continued exploration and development activities on the Company's Red Mountain Property located near Stewart, BC and for working capital purposes.

The Company also announces that it has granted 150,000 stock options, at a price of \$0.30, to an officer of the Company. The options vest immediately and are exercisable for a period of five years.

2014 EXPLORATION PROGRAM

IDM has recently completed a surface diamond drilling program at the Red Mountain Project. Assays are currently pending from twelve diamond drill holes on the Property, including: five holes targeting the new Uxlox and Wyy Lo'oop Discoveries at the Cambria Zone, two holes from the AV zone extension, three holes from the 141 zone, and two holes from the Marc Zone extension. All assays are currently pending, with initial results expected within three weeks. Additionally, IDM will be announcing assays from regional rock and soil sampling, and from un-sampled historic drill core.

Rob McLeod, P.Geo, President and CEO of IDM Mining Ltd. and a 'Qualified Person' under NI 43-101 has reviewed and approved the technical content of this release.
