

IDM Mining Signs LOI to Sell Yukon Portfolio to Strikepoint Gold

December 21, 2016, Vancouver, BC – IDM Mining Ltd. (TSX.V:IDM) (“IDM” or the “Company”) is pleased to announce that it has entered into a non-binding letter of intent to sell IDM’s extensive portfolio of properties located in the Yukon to StrikePoint Gold Inc. (TSX.V:SKP).

Under the terms of the letter of intent, the purchase price for the Yukon Properties will be \$4,000,000 paid as follows: \$150,000 in cash and 10 million common shares of StrikePoint valued at \$0.385 per share. StrikePoint will also be required to incur \$1,500,000 in exploration expenditures on the Yukon Properties by December 31, 2017 and to pay any deficiency to IDM in cash.

IDM will also be granted certain anti-dilution rights, the right to appoint two members of StrikePoint’s board of directors and a right of first refusal over any proposed disposition of the Yukon Properties during the two year period following closing.

The transaction is subject to various conditions including completion of due diligence by both parties, the entering into of binding transaction agreements, including board approvals, regulatory approvals, receipt of third party consents and StrikePoint obtaining the approval of its shareholders as the transaction will result in the creation of a new control block position being held by IDM. Closing is to occur on or before February 28, 2017.

“IDM is looking forward to being a substantial equity holder of StrikePoint and the Yukon portfolio being advanced during 2017,” said Rob McLeod, President and CEO of IDM Mining. *“This transaction will allow our Company to remain focused on advancing permitting and feasibility work on its high-grade Red Mountain Gold Project.”*

Yukon Properties

The Yukon portfolio consists of 14,078 claims covering 27 properties in 49 claim groups totaling 282,000 hectares (the “Properties”). The Properties cover multiple tectonic and metallogenic environments as well as a variety of mineral deposit styles common in Yukon. The Properties were previously held by Ryan Gold Corp. (“Ryan Gold”) and its subsidiaries, and received significant exploration work, with approximately \$25 million (as disclosed in Ryan Gold’s 2014 year end MD&A) in expenditures incurred. The Properties have limited holding costs. Previous work by Ryan Gold included significant exploration drill programs on two of the Properties, with tens of thousands of rock and soil samples collected during grass-roots exploration programs in several districts throughout Yukon. Additionally, geophysical surveys and geologic mapping programs have outlined many anomalous areas that have not received follow-up work.
